

Quanteda Package Vignette Testing

Kenneth Benoit and Paul Nulty

April 29, 2014

1 It's just like a latex file

The document should be written and interpreted as a latex file.

```
> x <- 5  
> y <- 9  
> z <- x * y  
> print("testing")
```

```
[1] "testing"
```

```
> print(z)
```

```
[1] 45
```
